

Workshop Equipment & Service

POWERLIFT PLC-688A FULLY AUTOMATIC TYRE CHANGER

Features:

- The latest controllable head breaking disc system can effectively insert to tyre bead and separate rim & tyre
- Special leverless kit as patented technology from Italy, have been testified in European market through years to a matured state with capability to perform mounting/demounting operations toward a wide range of tyre types
- The spindle clamping system can quickly hold tight the wheels
- Tyre pressing operation can be performed on both upper and lower sides without flipping the tyre improve work efficiency.
- The wheel lifter can easily raise the tyre to operate position, labor saving
- Optimised structure occupies less space, bring up outlet's taste to another level

Specifications:

- Outside Clamp 13-30 "
- Rim Width 15 "
- Max Wheel Diameter 1200 mm
- Working air pressure 8-10bar
- Bead breaking force: 9800N
- Torque: 1200N
- Turntable Rotation Dual Speed: 6.5/13rpm
- Power supply voltage: 220V/240V
- Motor Power: 0.85kw
- Noise < 70dB
- Rotation Per Min: 0-13Rpm
- Package quantity: 1
- Package dimensions: Main unit: 1300 x 1150 x 2020mm
- Packages weights: Main unit: 435kg,
