CHALLENGER 4030 SERIES 4 POST LIFTS

Challenger engineered our new 30,000 lb / 13,607kg capacity 4-post 4030 series lift with safety and durability in mind.

Challenger also integrated our time-proven cable-driven lift system with heavy-duty steel sheaves and cables for optimal performance. A single-point air actuated lock release makes these lifts simple to use. Choose between general service or alignment deck models as well as three lengths to fit your shop's needs. A range of optional accessories is also available.

Features:

- ALI-Certified Cable-Driven 13,608KG 4 Post Hoist!
- 3 lengths to accommodate 244.5" - 318.625"
- Large heavy-duty steel sheaves and cables
- Time-proven cable and cylinder design system
- 71.75" rise height provides more work space underneath vehicles
- Heavy-duty cylinder for optimal performance and minimal maintenance
- Single point air actuated lock release disengages all column locks simultaneously
- Multiple locking positions for a variety of alignment and general service tasks
- Compatible with the industry's latest camera imaging alignment systems
- Available recessed heavy duty steel turnplates provide accurate readings
- Durable non-skid louvered approach ramps for positive vehicle traction and technician safety
- Built-in runway rail system provides versatility to add convenience options like rolling jacks and sliding oil drain pan (Sold Separately)
