Workshop Equipment & Service

HOFMANN®

GEOLINER 790 WHEEL ALIGNMENT

FEATURES

- Bluetooth communication eliminates wires, eases installation and maximises mobility
- Professional results and high productivity
- Improved DigiSmart technology allows the new high-resolution cameras to automatically, quickly and accurately track the targets
- 3-Camera design is ideal for installation in drive-through bays
- High-end control terminal with embedded PC
- 24" flat-screen monitor
- New small and lightweight XD targets
- Self-centring AC400 quick wheel clamps:
 - secure and consistent attachment owing to clutch limited clamping force
 - securely attach the tyre without contacting the rim
 - large, comfortable handle allows ergonomic use
 - durable and lightweight magnesium construction
 - tyre diameter range 19" - 39"
